Junior Graphic Designer

I worked with the marketing team to create the following: listing brochures for new properties, recruiting materials for new hire prospecting, and material for social media. I also updated old marketing material based on new brand standards for new and existing agents.

I have had the opportunity to work for a variety of clients on a lot of different types of projects including branding and logo, print designs and website design. This has allowed me to work in industries from sports and fitness to coffee to tempurpedic beds.
